Truck buying checklist

HOWO and SHACMAN | R Trucks and Heavy Machinery | 30 October 2026

1. Define the work

- ☐ Truck type, quantity and new or refurbished condition
- ☐ Country, destination port and steering side
- ☐ Cargo, route, body dimensions or trailer/coupling requirements

2. Identify the offered truck

- ☐ Chassis identification, build year and engine identification
- ☐ Gearbox model, axle configuration and ratio
- ☐ Photographs and video linked to the offered unit

3. Agree the preparation and evidence

- ☐ Written inspection, repair and replacement scope
- ☐ Items excluded, unresolved defects and checks still pending
- ☐ Evidence agreed for each payment and release stage

4. Compare the complete cost

- ☐ Dated unit price, quantity, currency and trade basis
- ☐ Separate freight, insurance and destination charges
- ☐ Local service provider and component-specific parts availability

5. Confirm before ordering

- ☐ Destination eligibility confirmed with the relevant authority/agent
- ☐ Written specification and agreed terms match the quotation
- ☐ Factory video call or independent inspection arrangements

Open questions / evidence still required:

_____

_____

Buyer guidance from a truck supplier. This is not an inspection certificate or quotation.

A purchase planned for 2027 still needs current specifications and a dated offer.
